

SKATE RENTAL AGREEMENT

Regular Season Rental – Regular Speed Skates

This agreement is for the rental of regular speed skate pair number _____. It also includes one pair of _____ soakers and one pair of _____ skate guards.

Conditions of rental:

- Renter must be a club member in good standing, registered for a program during the current season. The rental period runs from the skater's first ice session of the season to March 31. Skates must be returned to the club no later than April 15. Skate rental fees are to be paid in full before removing skates from the arena.
- Skaters and their parents must attend a skate sharpening and maintenance demonstration before or shortly after their first skate rental. Skates must not be taken to commercial skate sharpeners as their sharpening equipment would damage the blades, which must be hand sharpened. Skaters must care for skates (sharpening, cleaning, laces, etc.) according to procedures prescribed by the club. A club sharpening kit will be available for use at the arena to sharpen skates. Club personnel will assist renters who have not yet been trained in sharpening.
- Skaters must accept responsibility for any loss or damage beyond normal wear and make good such damages.
- The rental fee for the season (September-March) is \$100 for regular speed skates. The rental fee includes hard guards, which must be worn whenever walking in the skates off-ice, and soft guards (soakers) which are used for transportation and storage. Skates must not be stored with hard plastic guards on the blades.
- All skates, guards and soakers must be returned at the end of the season (by April 15). At that time the skates should be clean, sharpened and contain proper laces. Lost guards or soakers must be replaced. If skates are not returned by April 15th, skaters will not be eligible to rent skates in the following season.

I agree to the terms and conditions of rental and will return the skates by April 15th.
